-Clean up and optimize recorded spoken voice. -The filter supports de-hum and de-buzz settings. -The plugin has a 10 band equalizer section. -Support for VST, AU, RTAS, & AAX plugins. *Not for commercial use. ===== Reviews: "This plugin is the best voice enhancer i have ever used. Really easy to use, really fast and really powerful. The voice enhancement offered by this plugin is highly impressive." - Joe R. 8/25/2017 "Dialog is one of the best voice boosters I have used (and I am a longtime heavy music nut). It works really well and sounds great." - Mark O. 7/26/2017 "Dialog is one of the best and easiest voice enhancers and enhancers I have seen. It is my absolute favorite software voice enhancer" - Jeremy R. 8/4/2017 "Excellent tool for audio engineers and voice over artists, the sensitivity and settings are perfect for my trade, Ive used the VST version for several years and use dialog in every film I edit." - Vince 8/12/2017 "This is the best live sound database on the market. Only problem is that it is constantly updating and every update takes forever. If you have small jobs you can't use it like this, however with multi-million dollar projects, you can." - Andrew 10/6/2017 "The price is way too high for this product. It is one of the best voice enhancers available but the price is exhorbitant. - Graham 10/24/2017 "The best voice enhancer I have used. It is easy to use and it's great at doing its job." - Doug 5/25/2017 "I used it as an enhancer, but it is also very useful for creating consistent levels across channels/speakers." - dennist 3/20/2017 "I have been using the trial version for more than a year now and it's been very useful. The author seems to be very active, so I'm sure that the plugin will keep improving" - C.C. 7/1/2017 "This is the best voice enh

The AmazingVoice de-buzzing app has been designed with the ultimate user experience in mind. The de-buzzing app can be used on all audio files, regardless of its format. De-buzzing is the process of lowering the audio noise level and improving the clarity of your voice. Download it now and let your voice shine! Download from the App Store: Download from Google Play: Use Audio Assistant to block users from meeting up with you on MeetUp or Facebook. If you're a realtor, you could even block them from contacting you. The possibilities are endless! How to Use: 1. Add a destination to your map 2. Pick a time limit between 10 min and 2 hours 3. Pick a location or the destination will be randomly generated 4. Open the app and choose a filter name (i.e. "Real Estate", "Personal", etc.) 5. Confirm your destination location or you'll get it randomly selected 6. Use the microphone to place your destination and other users will only be able to join you if you block them in the filter ** Please note this is a beta product with many limitations and has risks associated with it. I wouldn't recommend anyone to use it unless they are not afraid of viruses. If you like the app, please support me by rating
