
Solucionario Analisis Estructural Hibbeler 3a Edicion 120 UPD

Standalone software Software that is not part of a larger package or suite can be marketed as stand-alone software. Example: The same software is sold under the name "PC Sorter" in two versions. One with the function for just sorting file names without sorting order, the other version of it has an additional function for sorting the file names into correct folders with the function to select the folder,.. Acronyms An acronym is a word formed by the initial letters of other words. The intention of the acronym is usually to make words easier to recall. This is a common method of naming letters, e.g., the Greek alphabet is called Alpha and Omega, and for many other groups. For example, software titles often have abbreviated versions of their names or other acronyms. Such names are often used in advertising, and may be abbreviated for ease of communication. Another example is the use of the letters "FM" in the names of AM radio stations because of the commercial nature of the "All" part. Acronyms should not be confused with initialisms, which are names of business groups, such as IBM. A proper acronym is a name with no connection to the actual business name of the corporation, while an initialism typically is an abbreviation of a corporation's name. In the United States, initialisms are permitted by the United States Code, but not by the same trademark statute. "In International Business English" in written communication includes some acronyms, for example: "IBE", "GTE" and others. Adjectives Most English adjectives are formed by adding a suffix to the base noun. An adjective is a word that modifies a noun or pronoun and indicates a noun's quality or meaning. For example, "swim" is a noun describing a person's ability to swim. "Swimming" is the adjective that modifies the noun "swim". The degree of strength that "swimming" has in this example is "possible". If we want to describe "swimming" in a more extreme way, we may say that it is "impossible" for someone to swim. The degree of strength for "impossible" is "impossible". There are also adjectives that modify other adjectives, such as "proper" and "wrong". A word that modifies another adjective is an adjective phrase. An adjective phrase is of the same form as the
