the 1933-34 prohibition repeal saw the beginning of the end of alcohol prohibition. on december 5, 1933, the twenty-first amendment to the united states constitution was ratified, allowing the states to decide whether to continue or repeal prohibition. the states were divided on the issue, with 22 states repealing prohibition and 11 remaining prohibition states. in the years following the passage of the twenty-first amendment, many towns and cities throughout the country also repealed their alcohol bans. many states followed in the footsteps of the fourteen anti-saloon counties in *fletcher v. peck*, and federal courts upheld local bans on alcohol as constitutional. the twenty-first amendment to the united states constitution, passed in 1933, took effect on december 5, 1933, and read in part that, "the transportation or importation into any state, territory, or possession of the united states for delivery or use therein of intoxicating liquors, in violation of the laws thereof, is hereby prohibited." at the time, there were no federal laws against alcohol consumption or possession, as the federal

government had allowed the states to regulate alcohol for as long as it was legal in the state. however, since the repeal of prohibition, states began to pass local laws against the sale, possession, and/or consumption of alcohol. the zodiac killer was active from late 1969 to early 1970, and terrorized northern california by sending a series of messages to newspapers and the police. the zodiac confessed to only two murders, but may have been responsible for as many as 38. he claimed to have killed for "no reason" other than "it was fun." despite this, the fbi determined that he was a serial killer, as he sent different letters and taunting messages to his victims. the case is the subject of the movie zodiac (2007).
